

Colvestone Primary School

PE & Sports Premium Statement
2023 - 2024

The government is providing additional funding to improve the provision of physical education (PE) and sport in primary schools – this is allocated based on the number of children in Year 1 – 6.

Last year from the government we received two amounts totalling £17,291. This is made up of £16,000 plus £10 per pupil.

The PE Premium funding is used to continually improve PE and Sport Provision across the school. Since the introduction of the PE premium in 2014 this has meant a huge success in raising attainment in PE and we will continue to build on our provision again this year.

We already prioritise PE and sport in our budget to enhance children's participation, involvement and attainment in PE; however, this additional sum contributes a significant amount for our school which so far has enabled us to develop the PE offer in our school. The PE premium contributes to the overall PE budget and in the financial year 2023 - 2024 will be spent in line with government recommendations for how to best utilise the funding:
